Vivoryon Therapeutics N.V. to Report Q3 2026 Financial Results on November 5, 2026

Halle (Saale) / Munich, Germany, October 30, 2026 - Vivoryon Therapeutics N.V. (Euronext Amsterdam: VVY; NL00150002Q7) (**Vivoryon**), a clinical stage company developing small molecule medicines for inflammatory and fibrotic disorders, with a primary focus on kidney diseases, today announced that it will publish its third quarter financial results for the period ended September 30, 2026 on Thursday, November 5, 2026.

As part of its third quarter financial results, Vivoryon will provide a business update, including updated cash runway guidance. The Company's key strategic priority remains securing the funding necessary to advance varoglutamstat into a Phase 2b clinical study in patients with advanced diabetic kidney disease, with the aim of confirming the compelling data observed in the VIVIAD and VIVA-MIND studies.

Vivoryon has made further progress in its strategic partnering efforts and is engaged in advanced negotiations with different parties towards securing a partnership for varoglutamstat in kidney disease. In parallel, Vivoryon has implemented additional cost-saving measures aimed at preserving its financial resources while pursuing its strategic partnering activities.

All ongoing negotiations and potential investments remain subject to the customary risks and uncertainties associated with such processes, and there can be no assurance that any transaction or investment will materialize.

###

About Vivoryon Therapeutics N.V.
Vivoryon is a clinical stage biotechnology company focused on developing innovative small molecule-based medicines for the treatment of inflammatory and fibrotic disorders of the kidney. Driven by its passion for ground-breaking science and innovation, the Company strives to improve patient outcomes by changing the course of severe diseases through modulating the activity and stability of pathologically relevant proteins. Vivoryon's most advanced program, varoglutamstat, a proprietary, first-in-class orally available QPCT/L inhibitor, is being evaluated to treat diabetic kidney disease. www.vivoryon.com
